30/60/90 Day Plan

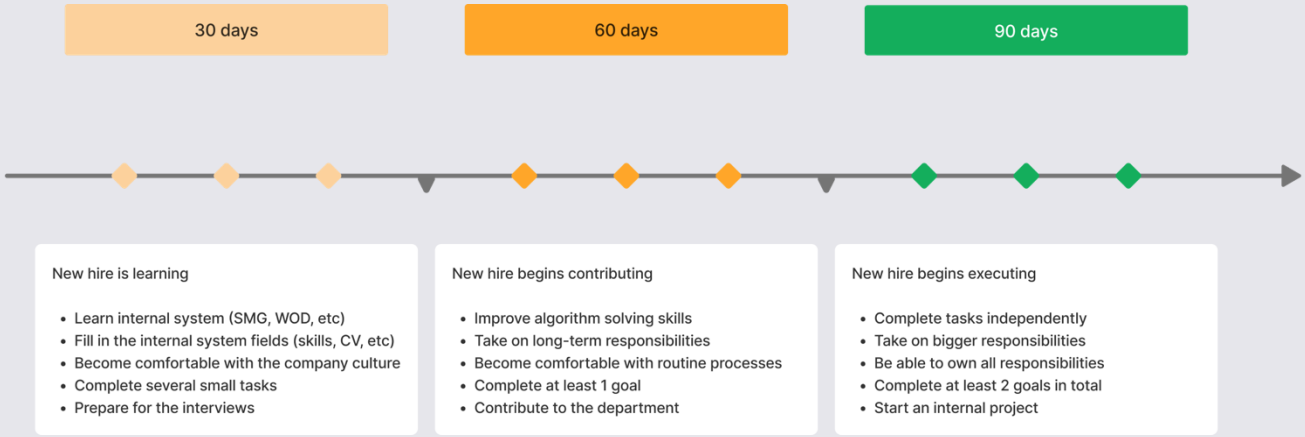
Employee	**Azimkhan Abdulsatarov**
Manager	**Javokhir Achilov**
Department manager	**Yegor Permyakov**
Date	

Your 30/60/90-day plan was created for you by your manager, to set you up for success in your new role. This is only an outline, so you should meet regularly with your manager to ensure you have all the information, tools, and resources needed to complete your goals.

During your first 90 days, you will:

- Understand your role expectations, individual goals, and team goals
- Set up all the needed information about yourself, skills and experience
- Complete a full business orientation, including system/tool access required for your role
- Be introduced to key members of the team and the department
- Identify any additional role specific training and on-the-job learning needs
- Prepare and have soft and technical skills assessments to successfully pass a real interview.

In general, we approach the first 30 days for learning, 60 days for contributing, and by 90 days you should be fully executing. By the end of the 90-day period, you should be able to pass the interviews on the external projects and have the skills that are needed to pass them. Projects and priorities may shift depending on new goals, so it is important to meet at minimum bi-weekly with your manager to check in on progress and update as needed.



1-30 Days

The first month you will: learn the tools, become comfortable with the team, learn products, complete some small activities, achieve a small goal.
Learning the goals: Do initial actions to fill in all the required information about youself to be available for the interviews for the external projects
